

Amendments to the Specification

Please replace the paragraph beginning page 9, line 2, with the following amended paragraph:

~~--On the contrary~~ Alternatively, the window blind cutting machine can be operated to cut the end of the window blind that is close to the second cutting unit **42**, and then to cut the other end of the window blind that is close to the first cutting unit **41**. The measuring of the window blind members at the second cutting unit **42** is made by means of the second measuring device **52**, and the measuring of the window blind members at the first cutting unit **41** is made by means of the first inner measuring rule **61**. In short, the operator can use either of the two cutting units **51** and **52** to cut the window blind members at first.--
